A BRIEF WRITE UP OF MSTC

I. MSTC is a Central Government Public Sector undertaking under the Ministry of Steel, having experience of more than 30 years in handling tenders and auctions of wide range of commodities and 15 years of experience in e-Commerce. We have huge experience in dealing with sale of products, Commodities, Scrap's, prime products, plant & machineries, immovable & moveable assets. We have more than 75000 registered customers across the country and overseas.

II. MSTC has fully equipped state-of-the-art infrastructure and required application software, developed in-house, with capability of customization as per the client's need. It is a standalone and neutral service provider with no outsourcing/sub-contracting of e-commerce activities to any outside agency. MSTC strictly adheres to the CVC guidelines, IT Act 2000 & its subsequent amendments etc. We have the required STQC certification for the E-procurement portal.

III. Considering the vast experience, trustworthiness, transparency and efficiency of MSTC's e-Commerce System, Hon'ble Supreme Court has nominated MSTC for e-Auction sale of Iron Ore in Karnataka. We have been selling Iron Ore for last seven years and generated considerable sum of revenue by way of Royalty and other taxes for the Government.

IV. We like to state that the Ministry of Coal selected MSTC on nomination basis to conduct the e-auction of Coal Blocks and the system has been appreciated by all, including the Hon'ble Prime Minister, at all forums. Ministry of Mines also appointed us on nomination basis for conducting the e-auction of mineral blocks of all the mineral rich states and the process has already been activated in the states of Rajasthan, Gujarat, Karnataka, Jharkhand, Odisha and Maharashtra.

V. Ministry of Power has nominated MSTC for development of an e-Bidding platform for purchase of power and signing of Power Purchase Agreements by all power utilities in the country. In addition Ministry of Power also engaged us for Transmission Service Provider e-Bidding, 11KV Feeder Monitoring System e-Bidding, RLNG subsidy e-Auction, DDUGJY and IPDS scheme among others.

VI. Ministry of Petroleum (DG Hydrocarbons) appointed MSTC on nomination basis for development of e-Bidding Solution for allotment of Discovered Oil and Gas Fields in the country.

VII. Ministry of Civil Aviation has also nominated MSTC to develop portal for e-Bidding of Regional Connectivity Scheme, intended at connecting more than 400 rural and semi-urban Airports throughout the country under the UDAN initiative (Ude Desh Ka Aam Nagrik).
VIII. MSTC has hosted separate portal for the E-auction of tea for TEASERVE.

IX. Kerala & Karnataka forest department has nominated MSTC for sale of forest products such as Sandalwood, Tendu leaves, Timber, Teak, Redsander etc.

X. Almost all Central PSU’s, Autonomous bodies such as ISRO, CSIR, IIT, IISC, etc., Central Govt department such as Customs/GST etc., State Govt. Department such as Electricity boards, Transport corporation etc. and port trust such as Cochin port trust, Kolkata port trust etc. has nominated MSTC and utilizing our portal for E-auction.

XI. Govt of Kerala, Telangana, Delhi, Rajasthan has given separate GO for utilizing MSTC Portal.

XII. We are also pleased to inform you that MSTC’s e-commerce Portal has copyright, which is a unique feature. MSTC has recently acquired CMMI Level 3 which places it at a ‘defined level’ for e-commerce process design and improvement. All these features ensure e-auction to be most transparent and fair and thereby results in more revenue generation for the beneficiaries.

XIII. MSTC has floated an exclusive site “E-RAKAM” for handling agriculture products. It is a first of its kind initiative where Farmers, FPOs (Farm Producing Organizations), PSUs, Civil Supplies etc. and Buyers will be brought on a single platform.

MSTC has been patented in the Government sector for introducing e-auction through its own portal and has been judged by almost all the Government Departments as the most trustworthy, transparent, efficient and cost-effective method.
BENEFITS OF OUR E AUCTION PROCESS

1. Buyers create their own user id & password at the time of online registration on our portal at www.mstoecommerce.com.
2. Registration is done by providing basic information along with mandatory information like email Id & PAN No.
3. Buyers need only one PC/laptop with internet connection for participation in the auction, hence they can bid from anywhere.
4. The buyer is activated after verification of documents like GST Certificate, PAN Card, IT Return etc and submission of one time registration fee.
5. We do not provide user id and password to the buyers for participation. This keeps the identity of bidder hidden and thus eliminates cartel formation.
6. We do not collect any participation fee from the vendors for participating in e auction, which again helps in not disclosing identity of the bidder and thus generate more competition in a transparent manner.
7. Getting best rate in a open, fair, transparent and competitive manner is more important than knowing who are participating.
8. Identity of the bidder is not known to anyone till completion of auction.
9. Prices are discovered through online, competitive bidding. Bidders can participate from any part of the world.
10. System captures the clients IP at the time of bidding,
11. Only upward bidding is allowed, system does not take the rate that is equal or less than the existing bid,
12. Bidders have to submit their bid in round figure only, part bid or bid in decimals is not allowed,
13. There is no provision to submit conditional bids,
14. Auto extension of closing time of e-auction to generate more competition,
15. Auctions are lot specific i.e. auction will close for a particular lot if bidding for that specific lot has stopped, for other lots auction will continue as long as bids are coming,
16. Auction will close when bidding for all the lots has stopped,
17. System declares the status of the lots as SOLD, REJECTED or STA automatically at the end of the auction.
18. Emails are automatically fired to the highest bidder for submission of EMD.
19. Log in of the buyer is automatically deactivated in case of non-submission of EMD,
21. Total transparency - creates trust and confidence
22. Least lead time - improves overall disposal cycle time and reduce administrative costs.
23. Reduced human intervention & paper work - improves overall management and eliminate chances of error
24. Minimize customers grievance/complaint/dispute - improves Corporate Image
25. Ensures compliance to CVC guidelines - leverages IT

Highlights of MSTC’s E Commerce Portal

1. MSTC Ltd is the only Central PSU in the field of ecommerce services which include e auction, e procurement and e banking facilities.
2. We do not outsource any of our activity.
3. All our e commerce activities including software development are carried our in house by our fully owned IT Infrastructure.
4. We cater to mainly Government Sector Organizations including the highest offices of the country like Cabinet Secretariat, Presidential Estate,
5. We are the most reliable service provider of e commerce as is evident from the fact that Supreme Court of India appointed MSTC Ltd on nomination basis for sale of confiscated Iron Ore in Karnataka.
6. Our services are proven & time tested as we conduct e auction for a wide variety of items.
7. We have adopted International standards of operation through ISO 9001, 27001 and CMMI level 3 appraisal.
8. We have regular IT audit of our system through STQC for ensuring safety and security of transactions through our portal, expenditure incurred by MSTC for carrying out system audit is not passed on to the clients,
9. We have been awarded Certificate of approval from STQC which is a mandatory requirement as per guidelines issued by CVC And Ministry of Finance on e commerce services.
10. E-auction floor designed to take all the advantages of tender & Physical auction. It removes cartelism, reduced cycle time etc.
11. More than 100000 bidders registered in the website which takes the information to all parts of the nation.
12. Economic feasibility of disposal as the end user directly participates in the E-auction as well any volume of material is taken care
13. MSTC technical capability of best it infrastructure, onetime write software makes the process e-auction process simple and efficient.
