

Guidelines for CSB email users.

- CSB is using NIC email service for its officials and offices, which are protected by geo fencing i.e., the email id's can be accessed only within geographical boundary of India.
- Any user wishes to access his/her email id from abroad during their visit outside the country are requested to get access permission enabled for accessing from specific location outside India.
- Also, it is found that many email id's are found to be attempted from outside India by hackers.
- All email users are requested to keep their passwords safe and keep changing at regular intervals to protect from hackers.
- This is for strict compliance by all CSB email users.
