2nd May, 2019

Dairy No. 201620

Date 14/5/19

Dear Shri Singh JS (Admin)

As we are aware, 5th June is celebrated every year as World Environment Day. Last year, India was the global host for the World Environment Day, 2018, the theme for which was 'Plastic Pollution'. Hosting this prestigious event was a step towards our commitment to taking on global leadership in addressing all forms of pollution, reducing emissions and investing in sustainable development. With participation of all the Central Ministries/Departments in beach cleaning activities besides many other एव, this event truly became a people's movement.

2. World Environment Day has always been a day of special importance to India. The theme this year WED 2019 is 'Air Pollution'. It has been decided to celebrate WED 2019 not only in Delhi but across country to sensitize masses on what can be their contribution to save the environment. The focus will be on the 102 NCAP (National Clean Air Program) cities where Government of India is committed to bring down pollution by 20-30 %. List of Cities attached.

3. I would urge you to start planning the actions in your Ministry/Department in two broad ways: (i) Awareness on environment conservation especially on the theme "Reduce Air Pollution" and (ii) Activities to be conducted to "Reduce Air Pollution". In this endeavour, you may take initiatives in your Ministry/Department and also involve other associated Offices/PSUs/Autonomuos Institutions and provide us an action plan by 13.05.2019. Some of the suggested actions are as follows:

- Prepare Audio-Video Creatives and make use of all mediums to spread awareness on Air Pollution. Creatives made by MoEFCC could also be used. These would be available on the Ministry's website.
- Undertake debates, workshops, discussions on related topics.
- Involve the youth and children in activities of their interest like drawing competitions, poetry, short audio/Video making, marathon, cyclothon, etc.

4. In am sure that this opportunity would serve to spread the messages of sustainability along with Development. The aim of this endeavour is to transform habits, practices, standards to dramatically reduce air pollution and promote better Environment.

5. Please join hands with us in this important endeavour. I look forward to visible concerted actions and high level commitment from your Ministry/Department.
